## ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Board of School Directors and  
Citizens of Strafford:

As required by law, I herewith submit the annual report of the Superintendent of Schools for the school year ending June 30, 1931.

During the year which this report covers six schools have been maintained for a period of 34 weeks each. Eighty-one pupils have been enrolled, forty-one boys and forty girls. Eleven children were between six and eight years of age; seventy were between eight and sixteen. The school attendance was 95.2 percent of what it would have been had there been no absences.

Certificates for the satisfactory completion of the elementary school course which entitle the holders to free advanced instruction were issued to the following persons: Nellie Bullard, Charles Doyle, Ruby Dickinson, Lester Morton, Otis Sargent, Mary Root, Eleanor Gomo, Stephen Nowlan, Mary Nowlan.

Tuitions for high school attendance were paid by the town for eight resident pupils.

---

On behalf of the parents of children who attend the Strafford village school and for the children themselves, I wish to express gratitude to all the taxpayers of the town, to the Barrett Trustees who donated bountifully, to Dr. Cobb for his splendid gift, to the teachers who helped to raise funds, to the school directors for their generous service, to the patrons of the school and all others who in any way helped to give this wonderful modern school building to the town.

For the benefit of those who have not yet had the opportunity to visit this school, it should be stated that the building was thoroughly overhauled and reconditioned in accordance with plans submitted by the State Board of Education, and accepted and approved by the board of school directors of the town. The improvements that were made include up-to-date Waterbury-Waterman heating and ventilating systems in each classroom which provide for rapid changes of warm fresh air, a new two-flue, tiled chimney, a rearrangement of the windows to give standard lighting which floods the pupils' desks with sufficient light only from the left and rear to avoid eye strain, new adjustable window shades, an attractive addition providing an entrance hall, sanitary toilet facilities inside the building, new interior sheathing, new walls and ceiling beautifully tinted, regraded school grounds, newly painted exterior, playground equipment of the most modern type, and many other features closely related to the welfare and convenience of pupils, which mark this building as a distinctly superior school plant.

All those interested in Strafford may well take pride in this newest addition to the public buildings of the town.

Respectfully submitted,

A. C. PARKER,  
Superintendent of Schools.

## Civil Authority Meeting

- 1 The \$400. That was raised for doctor.
- 2 The money left over in Road Acct.  
① We <sup>as auditors</sup> used it in one way to apply against debt.
- ② The town votes to spend it.
- ③ It fools the towns people on money raised.
- 3 The \$4400 left by the Senator Morrill.  
① Divided it \$1100 and 3300. <sup>3/4</sup>  
to Community Building & Permanent Acct.
- 4 We want to establish a permanent town debt. as auditors to be regulated by the town people in reducing it & by the selectmen in making it larger.
